## Introducing CLEARFIL MAJESTY™ ES-2 Universal

From the pioneers of CLEARFIL MAJESTY™ and light diffusion technology, we bring you one shade composite. Light diffusion refers to the materials ability to scatter and reflect light in many different angles that mirror a natural tooth. No blocker or opaquer needed.

It offers color adaptation and excellent blending to tooth structure with easy handling to create highly esthetic, natural tooth restorations. CLEARFIL MAJESTY™ ES-2 Universal is recommended for posterior restorations and can be used in anterior cases depending on translucency needs.

Excellent esthetics with fewer steps: **Intelligent Simplification.**
